

Premium Space Available in Cable&Wireless Worldwide Park Royal Data Centre

Gage Networks is a Cable&Wireless Worldwide Partner and will have premium colocation space available from May 2011 at the Park Royal Data Centre.

This world class facility provides a highly available, secure environment with direct access onto the Cable&Wireless Worldwide global backbone to offer carrier grade speed, resilience and diversity.

The available space occupies a premium and central location in unit 6 with exceptional air flow and easy access to redundant power feeds.

Fully Managed APC Cabinet Installation

- Cabinet Dimensions 47U; 1.7 m x 0.60 m
- Up to 4 x 10 Amp power feeds from redundant Power Distribution Units
- Power feeds connected to 230 V APC distribution unit (21 x C13 sockets and 3 x C19 outputs)
- Fully managed APC bars and structured cabling.
- Power monitoring and management via a secure and dedicated Customer Portal

Private Cloud Services

We deliver space and power in conjunction with other managed services including highly resilient & redundant Internet connectivity, managed backup and restore, structured cabling and managed SAN.

Our hosting facilities are on net for the Cable&Wireless Worldwide IP-VPN QoS MPLS platform to deliver Internet Access, Business IP Telephony, Hosted Call Centres and Managed Video Conferencing across a dedicated and secure private cloud.

Combining Cable&Wireless Worldwide experience and reliability, stringent availability SLAs with our technical expertise and years of dedicated experience provides unrivalled protection and support to ensure the smooth operation of your equipment.
